

# #TEAMCILAIRE

Sept. 15, 2020

Hello Cilaire Family,

Thank you all so much for your continued support and patience during these past few weeks as we navigated through our return to school plan. One item to note in the NLPS Stage 2 Restart Plan is the section highlighting improvements to school ventilation systems. Cilaire is noted as one of two schools that has classrooms with no ventilation. The solution noted is to open windows and increase the heat as required. NLPS has submitted a request for an upgrade to the heating system at Cilaire in the 5-year capital plan. With that being said, the significant wildfire smoke in our area has created an air quality advisory and schools have been asked to keep windows closed. The current Covid19 risk is low on the island and we will continue to diligently adhere to all other Stage 2 Health and Safety protocols (ie, handwashing, staying home if sick, PPE, physical distancing, etc.). Please know that the safety and well being of our staff and students is our top priority.

Once again, thank you so much for your partnership and support!

Please do not hesitate to reach out if you have any questions or concerns.

Sincerley, Carie Wood
